

Dear students:

The government of the Principality of Asturias has just published a new Resolution establishing new restrictions to academic and social life. These exceptional measures will be in place at least for 2 weeks, starting Wednesday 4th of November at 00.00.

1) New University measures (available at <https://cutt.ly/HgSjFTg>):

- Face-to-face teaching at the University of Oviedo has been temporarily suspended. All **academic activities will take place online**, except for those activities in which person-to-person teaching may be considered essential by your Faculty/School. Please, be mindful of any communication which might be sent from your Faculty/School.
- Access to University facilities is restricted to essential activities. The library loan service will be available by appointment, according to the procedure established for this purpose.
- Other Campus services, including the cafeteria and photocopier services, will remain closed.
- The University of Oviedo Student Card will enable you to travel between cities and to enter the University facilities in order to attend essential academic activities. The card is available in online format through the University of Oviedo app in your smartphone.

2) New social restrictions:

- Mobility restrictions: a curfew has been now established from 22:00h to 06:00h. Only those people who are going to or returning from work, or who travel due to *force majeure*, such as for a medical emergency or to care for a dependent person, will be allowed to be out.

3) All activities not considered essential will remain closed for the next 2 weeks, including bars, restaurants, theaters, gyms, swimming pools, etc.

As you know, the situation is changing every minute, so please make sure you check regularly the COVID19 section on the webpage at <https://www.uniovi.es/comunicacion/coronavirus/noticias> to keep updated. Also, please,
