

Saving and empowering young lives in Europe: promote health through prevention of risk-taking and self-destructive behaviors

PROJECT DETAILS

Funding Programme:
7th Framework Programme
(FP7)

Sub-Programme:
Health

Funding Scheme:
Small or medium-scale
focused research project

Project Reference:
223091; UE-09-223091

Project Duration:
36 Months (from 2009-01-01
to 2011-12-31)

Total Project Value:
€ 4.781.263

EU Grant-Aid:
€ 2.983.941

Funding to UniOvi:
€ 335.246

Website:
<http://www.seyle.eu/>

PROJECT DESCRIPTION

Promoting healthy behaviors is multi-faceted and no health is possible without mental health. The ultimate outcome of unhealthy and risk-taking behaviors is suicide. Risk-taking and suicidal behavior can be prevented. A pilot intervention study will be implemented to assess the effects of three different health promoting / suicide prevention programs in 11000 students across 11 European countries:

1. TeenScreen - screening by professionals of at-risk students through a questionnaire.
2. QPR (Question, Persuade & Refer).
